

GHP Magazine has announced the winners of the 2022 Healthcare & Pharmaceutical Awards

United Kingdom, September 2022

GHP Magazine has announced the winners of the 2022 Healthcare & Pharmaceutical Awards. Over recent years, the health and wellbeing of millions around the world has been under threat due to the pandemic - however, it is thanks to the innovations and resilience of those working within the healthcare and pharmaceutical industries that the public are protected from a number of viruses, with access to some of the latest, most cutting-edge healthcare and pharmaceutical solutions.

Now running in its eighth year, Global Health & Pharma's Healthcare & Pharmaceutical Awards are designed to recognise and award companies and individuals who served a variety of purposes during the pandemic. From researching and developing innovative pharmaceutical products that can be useful for those who may have contracted the virus to providing exceptional healthcare services to patients.

GHP Magazine, as always, endeavours to recognise those that are going above and beyond, or indeed, the businesses that are leading the industry forward, no matter how small their contributions might seem on the greater landscape. That's why we launched our awards programme, and why we continue to spotlight the work of exceptional companies and individuals.

Our Awards Coordinator, Katherine Benton has commented on the success of the awards programme: "It has been a delight to reach out and work alongside everyone who has been recognised in this year's Healthcare & Pharmaceutical Awards. Congratulations to you all and I wish you all the best in your future endeavours."

InnerCamp was recognized as the Leading provider of Holistic Therapy 2022 <https://www.ghp-news.com/winners/innercamp/>
